for which CMS has made assignments, using the most recent revision. Where there are no RVUs assigned to a procedure, the Director may develop and assign any RVUs that he or she considers appropriate. The geographic adjustment factor shall be that designated by GPCI for Metropolitan Statistical Areas as devised for CMS and as updated or revised by CMS from time to time. The Director will devise conversion factors for each category of service as appropriate using OWCP's processing experience and internal data.

(c) For example, if the RVUs for a particular surgical procedure are 2.48 for physician's work (W), 3.63 for practice expense (PE), and 0.48 for malpractice insurance (MP), and the conversion factor assigned to one unit in that category of service (surgery) is $61.20, then the maximum allowable charge for one performance of that procedure is the product of the three RVUs times the corresponding GPCI values for the locality times the conversion factor. If the GPCI values for the locality are 0.988(W), 0.948 (PE), and 1.174 (MP), then the maximum payment calculation is:

$$[(2.48)(0.988) + (3.63)(0.948) + (0.48)(1.174)] \times \$61.20$$
$$[2.45 + 3.44 + .56] \times \$61.20$$
$$6.45 \times \$61.20 = \$394.74$$

§ 10.808 Does the fee schedule apply to every kind of procedure?

Where the time, effort and skill required to perform a particular procedure vary widely from one occasion to the next, the Director may choose not to assign a relative value to that procedure. In this case the allowable charge for the procedure will be set individually based on consideration of a detailed medical report and other evidence. At its discretion, OWCP may set fees without regard to schedule limits for specially authorized consultant examinations, for examinations performed under 5 U.S.C. 8123, and for other specially authorized services.

§ 10.809 How are payments for medicinal drugs determined?

Payment for medicinal drugs prescribed by physicians shall not exceed the amount derived by multiplying the average wholesale price, or as other-wise specified by OWCP, of the medication by the quantity or amount provided, plus a dispensing fee. OWCP may, in its discretion, contract for or require the use of specific providers for certain medications.

(a) All prescription medications identified by National Drug Code (NDC) will be assigned an average wholesale price representing the product's nationally recognized wholesale price as determined by surveys of manufacturers and wholesalers, or by other method designated by OWCP. The Director will establish the dispensing fee, which will not be affected by the location or type of provider dispensing the medication.

(b) The NDCs, the average wholesale prices, and the dispensing fee shall be reviewed from time to time and updated as necessary.

(c) With respect to prescribed medications, OWCP may require the use of generic equivalents where they are available.

§ 10.810 How are payments for inpatient medical services determined?

(a) OWCP will pay for inpatient medical services according to pre-determined, condition-specific rates based on the Inpatient Prospective Payment System (IPPS) devised by CMS (42 CFR parts 412, 413, 424, 485, and 489). Using this system, payment is derived by multiplying the diagnosis-related group (DRG) weight assigned to the hospital discharge by the provider-specific factors.

(1) All inpatient hospital discharges will be classified according to the DRGs prescribed by the CMS in the form of the DRG Grouper software program. Each DRG represents the average resources necessary to provide care in a case in that DRG relative to the national average of resources consumed per case.

(2) The provider-specific factors will be provided by CMS in the form of their PPS Pricer software program. The software takes into consideration the type of facility, census division, actual geographic location (MSA) of the hospital, case mix cost per discharge, number of hospital beds, intern/beds ratio, operating cost to charge ratio,

and other factors used by CMS to determine the specific rate for a hospital discharge under their PPS. The Director may devise price adjustment factors as appropriate using OWCP's processing experience and internal data.

(3) OWCP will base payments to facilities excluded from CMS' IPPS on consideration of detailed medical reports and other evidence.

(4) The Director shall review the predetermined hospital rates at least once a year, and may adjust any or all components when he or she deems it necessary or appropriate.

(b) The Director shall review the schedule of fees at least once a year, and may adjust the schedule or any of its components when he or she deems it necessary or appropriate.

§ 10.811 When and how are fees reduced?

(a) OWCP accepts a provider's designation of the code used to identify a billed procedure or service if the code is consistent with the medical and other evidence, and will pay no more than the maximum allowable fee for that procedure. If the code is not consistent with the medical evidence or where no code is supplied, the bill will be returned to the provider for correction and resubmission.

(b) If the charge submitted for a service supplied to an injured employee exceeds the maximum amount determined to be reasonable according to the schedule, OWCP shall pay the amount allowed by the schedule for that service and shall notify the provider in writing that payment was reduced for that service in accordance with the schedule. OWCP shall also notify the provider of the method for requesting reconsideration of the balance of the charge.

§ 10.812 If OWCP reduces a fee, may a provider request reconsideration of the reduction?

(a) A physician or other provider whose charge for service is only partially paid because it exceeds a maximum allowable amount set by the Director may, within 30 days, request reconsideration of the fee determination.

(1) The provider should make such a request to the OWCP district office with jurisdiction over the employee's claim. The request must be accompanied by documentary evidence that the procedure performed was incorrectly identified by the original code, that the presence of a severe or concomitant medical condition made treatment especially difficult, or that the provider possessed unusual qualifications. In itself, board-certification in a specialty is not sufficient evidence of unusual qualifications to justify an exception. These are the only three circumstances which will justify reevaluation of the paid amount.

(2) A list of OWCP district offices and their respective areas of jurisdiction is available upon request from the U.S. Department of Labor, Office of Workers' Compensation Programs, Washington, DC 20210, or from the Internet at *http://www.dol.gov./owcp*. Within 30 days of receiving the request for reconsideration, the OWCP district office shall respond in writing stating whether or not an additional amount will be allowed as reasonable, considering the evidence submitted.

(b) If the OWCP district office issues a decision which continues to disallow a contested amount, the provider may apply to the Regional Director of the region with jurisdiction over the OWCP district office. The application must be filed within 30 days of the date of such decision, and it may be accompanied by additional evidence. Within 60 days of receipt of such application, the Regional Director shall issue a decision in writing stating whether or not an additional amount will be allowed as reasonable, considering the evidence submitted. This decision shall be final, and shall not be subject to further review.

§ 10.813 If OWCP reduces a fee, may a provider bill the claimant for the balance?

A provider whose fee for service is partially paid by OWCP as a result of the application of its fee schedule or other tests for reasonableness in accordance with this part shall not request reimbursement from the employee for additional amounts.

(a) Where a provider's fee for a particular service or procedure is lower to the general public than as provided by the schedule of maximum allowable
